

## Editorial Note

## 7<sup>th</sup> International Conference on Organic and Inorganic Chemistry June 18-19, 2020 Webinar

### Editorial Note

We had a huge success with the completion of **7<sup>th</sup> International Conference on Organic and Inorganic Chemistry Webinar** March 18-19, 2020. The significance of the meeting was achieved due to the accumulation of all the related group of spectators of research scientists to share their Knowledge, Research work, Technologies, and furthermore trade of worldwide Information towards the correct crowd at ideal time. Congress has received a generous response from all over the world. This has been organized with the aim of endorsing the development of new perceptions and ideas for investigating the high level of knowledge reached by scientific community in the field of Chemistry.

The conference was organized around the theme "*Study of novel organic theories to overcome the COVID-19 consequences*". The congress entrenched a firm relation of future strategies in the field of Organic Chemistry.

We would like to thank all the participants and following keynote speakers:

- Virginie VIDAL, CNRS(National Center of the Scientific Research)), France
- Janet Sabina, Sathyabama Institute of Science and Technology, India
- Zhiwei Miao, Nankai University School of Chemistry, China
- Tofik Nagiev, Baku State University, Azerbaijan
- Subhadeep Chakraborty, University of Calcutta India

We would like to thank each and every participant of Organic Chemistry 2020 webinar to make this a huge success. And special thanks to media partners for the promotion of our event.

The **ConferenceSeries** Organic Chemistry Conferences aim to bring together the prominent researchers academic scientists, and research scholars to exchange and share their experiences on all aspects of Organic Chemistry. It is conjointly a knowledge domain platform for researchers, practitioners and educators to gift and discuss the foremost recent advances, trends, and issues in addition as sensible challenges and solutions adopted in the fields of organic and inorganic chemistry.
