

Conferences Series LLC International Summit on 2nd World Congress on Petrochemistry Annual Meeting to Promote Research behind the Petro chemistry

P. Basilion

Professor, Department of Biomedical Engineering, School of Medicine, Case School of Engineering

Conferences Series LLC has successfully concluded its **2nd World Congress on Petrochemistry** from August 12-13, 2019 Auckland, New Zealand. More than 60 Researchers, Petro-chemical Industries, Petroleum Associations, Petro-Chemistry Professors, Petro Societies, Petroleum Engineering Faculty, Petroleum Technology Students, Petroleum Analysts, Chemical Engineering Professors and Petroleum Chemicals Marketers from around the world under a single roof, where they discuss the research, achievements and advancements in the field of Petrochemistry. The 2 days conference held on August 12-13 through the leading Petrochemistry scientists, researchers and scholars to share their experiences and research results about all aspects of **Petrochemistry**.

2nd World Congress on Petrochemistry 2019 was inaugurated followed by the key note session by **Nikolay P. Zapivalov**, **Novosibirsk State University, Russia**.

Supported through the organizing committee network of renowned scientific and professional expert such as **Russell R Chianelli**, University of Texas at El Paso, USA, **Davis L. Ford**, The University of Texas at Austin, USA, **Joseph D Smith**, Missouri University of Science and Technology, USA, **Craig L Hill**, Emory University, USA it provided a platform for collaboration among colleagues, vendors and academia to reveal new innovations, solutions, ideas, and emerging technologies in **Petrochemistry**.

Forthcoming Conferences on 10th International Conference on Petrochemistry and Natural Resources Annual Meeting during August 19-20, 2020 at Paris, France

Conferences Series LLC take great pleasure in inviting the scientific community across the globe to the 10th International Conference on **Petrochemistry and Natural Resources** Annual Meeting during August 19-20, 2020 at Paris, France. Paris, the cosmopolitan capital of France and one of Europe's largest cities, wherein the total Population accounts for 2.2 million people in the centre of the city, while 12 million people are residing in total in the main metropolitan area. Being located in the north of France onto the shores of the river Seine, it has a very well-deserved reputation image of being the most beautiful as well as romantic of all cities concerned, brimming with historic associations and remaining vastly influential in the realms of culture, art, fashion, food and design and lots more. This

meeting will explore advances in the **Petrochemistry and Natural Resources**.

The upcoming **Petrochemistry and Natural Resources 2020** focus on field of petrochemistry it's important to comprehend what petroleum is and where it comes from. Over millions of years, natural changes in organic materials have produced petroleum which has accumulated under the earth's surface. Petroleum rich areas are generally found in regions that support retention, such as porous sandstones.

The participants can exchange and share their research results covering the scientific aspect of Petro Chemistry, Chemical and Biochemical Engineering, Geology and Exploration, Drilling and Well Operation, Onshore and Offshore Support, Upstream, Downstream and Midstream Integration, Biopolymer Chemistry and Research, Bioenergy and Biofuels

Conference will encourage **Young Researcher's Forum**, scientists and the researchers in their early stage of career graph to widely discuss their outcome so as to enrich and develop the idea. The **'Best Poster Award'** is meant to encourage students in taking active part in the International Science platform to sharpen their skills and knowledgebase.

The Sponsor in the **Petrochemistry and Natural Resources 2020** can reach and get exposure to new clients, customer, business, brand awareness and media exposure. The sponsorship has different levels Premium Sponsorship Packages: Elite Sponsor, Silver Sponsor, Gold Sponsor, Exhibition, Additional Sponsorship Packages and Advertisements. The 10th Petrochemistry and Natural Resources 2020 Annual Meeting will consist of organizing committee network of renowned scientific and professional expert such as Vaishali Rakesh Umrigar, Professor Sarvajani College of Engineering & Technology, India Amarjit Bakshi, Director, Refining Hydrocarbon Technologies LLC, USA, Davis L Ford, Adjunct Professor, University of Texas at Austin, USA
