Neonatology and Perinatology 2020 Conference scheduled during April 20-21, 2020 at Berlin, Germany

Sridhar M. Ramaiah

Professor, Consultant in Neonatal Paediatrics, Uk, E-mail: Sridhar.Ramaiah@nuth.nhs.uk

Neonatology is a subspecialty of pediatrics that comprises of the therapeutic care of newborn children, particularly the untimely new born. It is a doctor's facility based strength, and is normally drilled in Neonatal Intensive Care Units (NICUs). The primary patients of neonatologists are newborn children who are sick or require extraordinary therapeutic care because of low birth weight, intrauterine development limitation, innate contortions (birth deserts), sepsis, pneumonic hypoplasia or birth asphyxia.

Neonatology 2020 features outstanding and internationally renowned neonatologists, perinatology experts, paediatricians, academicians and researchers. The representations include premier medical universities, hospitals and healthcare/pharma industries from all around the globe. The topics covered at the conference would range a spectrum of Neonatology, Perinatology and Pediatrics. Attendees of the conference would be delighted to witness various interactive workshops, keynote lectures, speaker talks, and poster presentations and most significantly the exhibitions held by the top healthcare and pharma industries. The conference also has Young Research Forum, where the budding researchers are encouraged to give oral presentations.

All over the world new methods and advance technique will be used to delight Neonatology and Perinatology Specialists. 23rd Edition of International conference on Neonatology and Perinatology is a perfect platform to Expanding the innovative techniques and novel research trends in Neonatology and Perinatology. Neonatology and Perinatology is a versatile conference that offers expert diagnosis, treatment all types of disorders in Pediatrics and children. With the Annual meeting on Neonatology and Perinatology, it is an amazing opportunity to the Neonatology and Perinatology Specialists from all over the world to gather and discuss the novel ideas and research to over the recent and harmful disorders of the children.

The Facts and Facets of Polymer chemistry and the most recent research are going to be illustrated by Sridhar Ramaiah, Academy of Scientific & Innovative Research, India in the field of Neonatology, Junior/Senior research fellows, Students, Directors of neonatalresearch companies to magnifying scientific knowledge by sharing the research and ideas.

This is one of the finest opportunities to engage with the eminent scholars from the area of neonatology. With your knowledge presented here for the benefit of the world you can inspire more people to enhance their research. Most prominent speakers, advanced technologies and discoveries in the field of neonatology and perinatology.

This scientific networking helps for the betterment of science by exchanging the ideas in a broader way in the “24th Edition of International Conference on Neonatology and Perinatology” which is going to be held during April 20-21, 2020 at Berlin, Germany.

Join us to witness invaluable scientific discussions and add to the future advancements in the field of Polymer chemistry in the upcoming "24th Edition of International Conference on Neonatology and Perinatology” which is going to be held during April 20-21, 2020 at Berlin, Germany.
