

Past Conference Report: Organic Chemistry Congress 2020

We take great immense pleasure to thank all the eminent participants-researchers, speakers, Our supporters- Organizing Committee Members, editorial members of International journals, its associated journals, media partners, collaborators from various Internal Organizations and one & all from around the sphere who has taken part in the successful completion of “**3rd International Conference on Organic Chemistry**” held on **23rd July, 2020** hosted by Allied Academies with the theme of “Exploring the New Dimensions and Advancements in Organic Chemistry”.

The conference accomplished with various excited Scientific Sessions/ tracks and the following keynote lecturers by the eminent professionals.

Title: Huisgen 3+2 dipolar cycloaddition, an efficient an straightforward way to azaheterocycles of potential practical applications

Mangalagiu Ionel, University of Iasi, Romania

Title: N-halosuccinimides as mediators for comprehensive direct transformation of alcohols under mild reaction conditions

Njomza Ajvazi, Jožef Stefan Institute, Slovenia

The massive successful response from the previous attendees boosted us come forward with another world-class conference called “4th International Conference on Organic Chemistry” which is going to be held on March 29-30, 2021 at Paris, France with an innovative theme “Contemporary Methodologies and Revolutionary Trends in Organic Chemistry” which stood as an another asset for the conference besides the highlights/ scientific tracks like:

- Organic Chemistry
- Bioorganic Chemistry
- Stereochemistry
- Catalysis of Organic Compounds
- Organic Synthesis and Chemical Bonding
- Structure and Reactivity of Organic Compounds
- Physical and Computational Organic Chemistry
- Inorganic and Bioinorganic Chemistry
- Medicinal Chemistry
- Industrial Chemistry
- Pharmaceutical Chemistry
- Organic Photochemistry
- Electro Organic Chemistry
- Fluorescent Molecules and Dyes
- Natural Products and Heterocyclic Chemistry
- Analytical Techniques in Organic Chemistry
- Organometallic Polymers
- Biochemical Interactions
- Biochemistry and Agricultural Chemistry
- Green and Environmental Chemistry

Organic Chemistry Congress 2021 provides an opportunity for speakers from all over the world to fulfil their network, and understand new scientific research innovations in organic chemistry. This conference will have a plenary lectures, session lectures and poster presentations, scientific Exhibitions, panel discussions and the leading specialists involved in all the areas of Chemistry.

Organic Chemistry Congress 2021 will bring likeminded professionals together like Academicians, Pharmaceutical Professionals, Industry specialists, academic professionals and students from all over the world to share views and ideas and can improve their knowledge about the advanced techniques in the field of Organic Chemistry.

Organic Chemistry Congress 2021 is specifically premeditated with a unifying axiom providing the pulpit to widen the imminent scientific creations.

Organic Chemistry Congress 2021 hosted by Allied Academies which was started in the year of 1994, with 25 years of excellence for a prestigious aim to conduct conferences and publish articles within the realm of business and management, Stepping ahead with an idea of honouring the presenters for their best lectures at the conference with the following:

- Best Keynote Speaker
- Best Masters/Ph.D./Postdoc Thesis work presentation
- Best Poster Award
- Young Researcher Forum award

Now, esteemed Organic Chemistry Congress 2021 with pronounced pride is inviting all eminent personalities of various Universities, societies and associations from all corners of the sphere to speak on their research and experience. Awaiting eminent keynote presentations, oral presentations, and poster presentations.
